Dear Mr Lasch:

I wanted to thank you for your organization's recent generous purchase of a computer system for a veteran in the Mobile area. Not only did this serve the practical purpose of helping him with working from home but it did wonders for his self-esteem. Such a caring act helped this veteran realize once again that others are concerned about the difficulties that befall veterans, and are willing to help.

I would also like to thank you and Mrs Lasch for talking with me about other veterans over the past few years, and helping veterans when it was appropriate for your organization to provide help. I am retiring at the end of May, but will leave your contact information for the next Primary Care Social Worker. Best wishes to your organization, as you continue to assist veterans in need. Thank you again for all your help.

Sincerely,

A handwritten signature in cursive script that reads "Joyce Warble".

Joyce Warble, LCSW-C
