Operation Phantom Fury: In November of 2004, multiple battalions of Marines and Army took part in the assault on the insurgent-held city of Fallujah. Insurgents from many countries flocked to the rising Al-Qaeda led insurgency and prepared their best and final defense. On November 8th, the ground operation to recapture of the city by coalition forces began, and would continue for weeks of brutal combat, street-to-street and house-to-house.

Remembrance: Operation Phantom Fury was a pivotal success. Known as the bloodiest battle of the Iraq War, The National Marine Corps Museum is opening *The Final Phase: The Battle of Fallujah II* exhibit. All Fallujah veterans are invited to a private viewing before opening to the general public in 2020. This gathering will be a time of solemn commemoration of fallen comrades and a time of healing.

Support: All proceeds from this tournament will provide travel, accommodations, and support for the Operation Phantom Fury veterans in financial need so they may attend this very special celebration.
